

MAYSVILLE LEDGER

MAYSVILLE REPUBLICAN.

FOURTH YEAR.

MAYSVILLE, KY., TUESDAY, JANUARY 8, 1895.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No business can afford to ignore advertising. Notices from any source that a merchant can save over his counter from gifts of dry goods or other goods. A newspaper is a genuine business concern. Its columns are its stock. Its readers are its customers. It is a business that will be paid for, and its matter in what part of the paper they appear.

The Continued Calls

upon The Ledger for free notices have become so numerous that we are forced to publish the following terms:

For Notices of Suppliers.

Advertisements, rates, or other public entertainments where a fee is charged, and for ordinary notices, reductions of respect, etc. The Ledger will charge five cents a line, and regular notices will be the invariable rule. This, however.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for business notices in The Ledger is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local notice in the paper. "I'll tell you when to take it out," the says to the bookkeeper. But he forgets all about it. The notice runs for two months. The bill is \$10. "A heck and a wonder," the says, "I thought it was a local notice. I'll have it stopped." The bookkeeper follows the notice and the termination will be pleasant all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

Lexington Leader—Mrs. William Martin and granddaughter of Maysville, who were the guests of Mr. William B. Britten of 176 Race, will return home, much to the regret of their many friends. Mrs. Martin has made many friends while here on her visit.

The railroad brakeman quit at last. For him a place was making. He looked and looked, without success. And yet was still undaunted.

Lock came at last—a crooked store, for him a place was making. But quick he went, when they found out that he was bent on breaking.

MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

White clouds—FAIR.

Blue—RAIN or SNOW.

With black above—WILL WARMER.

If black's beneath—COLDER—will be.

Chilled black's shown—no change will be.

The above forecasts are made for a period of one week ending at 5 o'clock to-morrow evening.

Ed. Taylor was fined \$2 and costs in the Police Court yesterday for disorderly conduct.

The Republicans took hold of the county offices yesterday and even the river is booming!

William Hoops was given \$25 and costs and ten days in jail for carrying concealed weapons.

William Lewin was yesterday before "Suite" Brannan for breach of the peace and was fined \$2 and costs.

Miss Lizzie Davis, formerly of this city, was married recently to a Mr. Gray of Kettle Falls, Washington.

Pox Stewart took on an overdose of "cotton" yesterday Saturday evening and was taxed \$1 and trimmings for it in the Police Court yesterday.

One of the first duties of County Clerk Cochran was to make a couple of people happy. Yesterday he issued a marriage license—the first since Christmas Day, 1894.

The first proclamation of the marriage of Mr. W. T. Cummins and Miss Mary Hickey, both of this city, was announced at St. Patrick's Church Sunday. Hand some invitations are out also, announcing the ceremony for Wednesday, January 23d.

Charles J. Traister of Covington dropped dead in Chicago yesterday at the residence of his uncle, Rev. Watson Tranter, a Methodist Minister. He left home Friday in the best of health. He was 42, and leaves a wife and four children.

The Ledger is strongly of the opinion that there is a yell. If there isn't, there ought to be, if for no other purpose, at least for the benefit of some people who bring calves to town for shipment. There was a scene yesterday in front of the Adams Express office that merited attention—a dose of law.

Parties holding claims against the County Infirmary will please present them to Superintendent Ryan on or before Friday, January 11th, for settlement January 11th.

Funnier Than a Circus.

Si Plunkard and his famous farmers will be here Thursday evening.

Si will bring his famous farmer's band with him and show you city chaps the pride of Fairview. Si says "Gosh, him and his buglers are right in it," and will parade about noon rain or shine. No difference, cause all him and his boys have got to do is tick their trousers in their boots and wear in the mud knee deep. "Si" will lead the band whistling the mocking bird, so don't fail to see this novel and amusing street parade at noon.

James B. Wilson, formerly of this city, is now clerking for T. J. Pilcher, dry goods, Lexington.

John Neale, a prominent farmer of Napoleon, Ind., has lost his mind over the A. P. A. question.

Mrs. Alice Boyd, one of Mineva's esteemed citizens, has taken up her residence in Maysville.

The \$25 offered by the C. and O. for the best maintained section of the road during the year was awarded to G. F. Drake of Section 221, which includes Five Mile and California.

The snow all left town Saturday night. Whether this was on account of the enforcement of the Sunday closing law, or in view of the incoming of the Republican administration in this city, The Ledger is not prepared to say.

The new Executive Committee of the Mason County Auxiliary of the American Bible Society is composed of Messrs. G. W. Geisel of M. E. Church, South; A. M. J. Cochran of First Presbyterian Church; H. C. Shary of Central Presbyterian Church; I. M. Lane of M. E. Church; L. M. Mills of the Christian Church and W. H. Cox of the Episcopal Church.

The local doctors at Paducah have resolved that it is unprofessional to have their names appear in newspapers in connection with accidents, surgical operations, etc., and will hereafter request that their names be omitted from reports of such cases by the press. If this thing keeps on it will soon be unprofessional for a physician to have his name on the tin doorknob of his office.

"The Burglar."

There was an appreciative audience at the Opera-house last evening to witness that delightful melo drama, "The Burglar."

The company was by all odds the most talented that has appeared in this city during the present season, the role of William Lewis the Burglar, maintained by Mr. Eugene Moore, being replete with dramatic interest and tender pathos.

The part of Alice, the burglar's wife, is one of great difficulty, but it was ably sustained by Mrs. Anna Boyle Moore—the winsome Anna Boyle who has delighted thousands with her charming impersonation of "Fanchon" in years gone by.

Messrs. A. Gordon-Robinson, Walton Townsend and Edward Craven were very clever, while Mr. T. A. Russell was a typical law student. Misses Beatrice Ingram and Margaret Pierce were exceptionally good in their respective parts.

Little Gertrude Carls as "Editha" was exceptionally "cute" and admirable, acting her part with a naturalness that was captivating.

It is no exaggeration to say that the company was deserving of a full house; and if this citizens of Maysville city Mr. Sterling and Winchester, which points they play next, do not embrace the opportunity, they will miss one of the best dramatic entertainments now before the public.

CRAZED WITH TOOTHACHE.

Paul Wilson goes to the bushes and hangs himself.

Paul Wilson, aged about 60, whose home was five miles from Concord, became crazed with toothache.

Last Friday night he went to the bushes and some time afterward his body was found hanging, life being extinct.

Sheriff Vansardall, who killed Dr. Harrold at Harrodsburg, will have a preliminary hearing today at which, it is said, many startling facts will be brought out. The Sheriff in the meantime is under guard.

Hiram Proffitt, a well known Minister of Democrat, Letcher county, died a few days ago. Just before his death he requested his family to ring the dinner bell two hours after he had passed away. Of the hangings ninety-one were in the South and forty-one in the North; of the lynchings 106 were in the South and twenty-four in the North.

MASON COUNTY TEACHERS.

They Can Get Half of the January Payment Next Saturday.

The following is self explanatory:

Re: FRANKFORT, Ky., Jan. 3d, 1895.

To: County and City Superintendents.

Regret to have to inform you that the State Treasurer is unable to honor in full my warrant for January payment of the remaining School Fund for the current year. Checks for one-half the amount will be sent you next week time for you to make payment to that extent on the second Saturday, the 12th inst. of the year.

For the information of your teachers, that a little disappointment as possible may ensue. Yours truly,

ED. PORTER THOMPSON, State Superintendent.

And thus stands Democratic old Kentucky!

But March, isn't it about time you were fooling your readers some more by telling them there is plenty of money in the Democratic State Treasury at Frankfort?

FROM LAKE TO RIVER.

The Proposed Ship Canal Across the State of Ohio.

Portsmouth Blade.

There has been some misunderstanding as to the nature of the bill making an appropriation by the National Government for the survey of a ship canal from some point on the Ohio river to Lake Erie. For the information of our readers, of our readers who do not understand the merits of the bill we reproduce it. It reads as follows:

"That the Secretary of War be and he is authorized to appoint a board of three engineers, of the army, whose duty it shall be to survey the Mississippi and Ohio Canals, the Ohio Canal and such branches thereof and such river and stream channels as may in their judgment prove available portions of a continuous canal connecting the waters of Lake Erie with the Ohio river through the state of Ohio, and to report as to the feasibility and advisability of improving and widening such canal to seventy feet at the water line and deepening the same to seven feet, and by construction of new locks, not less than 130 feet in length and twenty-one feet in width, with a capacity for vessels of at least 250 tons burden, and to report to the next session of Congress with detailed plans and an estimate of the cost of such improvement; and \$20,000, or so much thereof as may be necessary for the construction of such canal, be and is hereby appropriated, provided, that nothing herein said be construed to commit the Government to proceed with the construction of said improvement."

This improvement is within the reach of the people of Ohio. West Virginia and Kentucky, with their vast deposits of coal and other resources that will find a market in the West, are at our back. They will receive even larger benefits than Ohio, and will join her in demanding that the improvement be opened to the lake for their coal. There is no coal in the Northwest, and the Northwest will join Ohio, Kentucky and West Virginia in assisting themselves to cheaper fuel and more of the comfort of life. It is human nature that the West will be built, not today, nor tomorrow, but it will be built.

BOMBING!

SOME SEQUELS TO THE LATE REPUBLICAN VICTORY.

Returning Prosperity—Factories Starting Up—Work for American Workmen.

(Before the election The Ledger argued that Republican success meant a restoration of confidence, the opening of American factories and workshops, the return of business to its wonted channels, profitable and steady employment for American workmen, and an era of renewed prosperity all along the line. That the hopes held out by The Ledger were not false ones are being fully demonstrated. Below are a few evidences of the business revival that trends on the heels of the great Republican victory.—Editor.)

A first-class baker can secure steady employment of Z. C. Flaeger, Millersburg, Ky.

The Dayton Buggy Works, Dayton, O., wants to employ a good blacksmith. Address Morris Woodhull.

Redding & Co., Dunkirk, Ind., and S. A. Stratton, Richmond, W. Va., will give steady employment to a first-class barber.

The Midland Steel Company, Muncie, Ind., is adding more men to its payroll almost daily. A large number are still wanted.

A large number of men are wanted at Fairmont, W. Va., to work on the construction of an ice plant and storage warehouse.

Charles J. Wolfram, Cleveland, O., wants to employ two wood engravers, one designer and one draughtsman. Steady employment.

The William Mill End Machine Company, Cincinnati, capital stock \$50,000, formed to manufacture ice-making and rubber rollers and devices, has been incorporated.

The M. T. Gleason Manufacturing Company of Columbus, O., and the Louis Duemmer Pattern Works, Hamilton, O., are each in need of the services of experienced pattern makers.

The Lake Erie and Western Railroad Company is in need of a good yardman to fill the position of yardmaster at Muncie, Ind., at a salary of \$90 per month. None but competent and experienced men need apply.

There is a big demand for boys at the several glass factories in Muncie, Ind. Employment will be given to men who have boys and will remove to Muncie, in order to secure the services of the latter. The wages earned by boys thus employed are very satisfactory.

The Nelson Glass Company at Muncie, Ind., will start its plant within the next ten days, and will give employment to 130 men. Applications forwarded to the company will receive prompt attention, as it is desired to have the full number of men engaged before the day of starting.

The Morris Autograph Company of Cincinnati, capital stock \$20,000, for purposes the manufacture and sale of store and office fixtures, appliances, cash registers &c., has been incorporated by Joseph S. Peebles, W. H. Winton, O. J. Carpenter, Rankin D. Jones and Joseph S. Trevor.

Reports come that within the past few days there has developed a demand for all kinds of laborers in the Indiana gas belt. Nearly all the factories that have been closed down are being put in operation, and there are very few idle men in any of the manufacturing cities and towns of the state.

The managers of the American Tinplate Factory at Elwood, Ind., report that they will start the new addition of four mills about January 15th, when about 250 extra men will be given employment. The situation at the other manufacturing plants remains unchanged, and the outlook for 1895 is exceptionally bright.

During the coming year four or five hundred miles of new railroad will be constructed in Indiana. Most of the new lines have been projected for a long time, and on some of them grading has been done, in order to keep up the franchise. During the year 1894 only eighty miles of new track were laid in Indiana, being less than for thirty years past.

The following articles of incorporation were filed in the office of the Secretary of State at Columbus, O.: The National Printing Company, Columbus, capital stock \$25,000. The Henry Brock Coal and Supply Company, Lorain, capital stock \$30,000. The Hopley Printing Company, Bucyrus, capital stock \$20,000. The American Lumber Company, Cleveland, capital stock \$5,000. The Southern Ohio Telephone and Telegraph Company of Hamilton.

AMERICA FOR AMERICANS

MCKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the East, and in 1894 William L. Wilson was dined and wined in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

According to Don's Agency there were 13,885 fatalities in the United States last year and 1,850 in Canada. Liability in the United States were \$12,902,856 and in Canada \$17,616,215. Can't Brother MANN once more trot out his figures showing about 10,000 fatalities in one year under a Republican Administration?

COULDN'T this Tariff war be stopped by abolishing all Tariffs and allowing consumers to purchase in the cheapest and sell in the best markets? What has trade ever done to man that it should be tied up hand and foot? For whose benefit is the tying up done? Not the consumers, certainly—Corkington Commonwealth.

Now you're shoutin', old man! Let's do away with the Tariff altogether. What a glorious thing it will be to have American mechanics working for Chinese and Italian wages and living on macaroni and rats. As for the few hundred millions of dollars that the Tariff produces yearly for the support of the Government, the Democratic Free-trade Bitter will gladly make up that small sum out of their own pliehoric pockets. Right you are, LARRY JAY; and you are hereby created Chief Engineer of the Millennium!

INSTEAD of opening to this country "the markets of the world," and "tearing down the Chinese wall" that kept trade out of the United States, it now looks Free-Trade the new Democratic Free-trade Tariff Bill was going to close all important European ports against American products, and that the Democratic Administration at Washington will be forced to close all American ports to European products.

Austria is the last country to protest against that part of the sugar schedule of the Wilson Bill which imposes an additional duty of one-tenth of one percent on sugar coming to the United States from countries which pay an export bounty on it.

The ground taken by the Austrian Minister was similar to that which formed the basis of the protest of Germany—that the additional duty paid discriminates against Austria, and is consequently a violation of the treaty of commerce with the Nation. So far no threat of retaliation accompanied the protest, but in this the Austrian representative is but following the example set by the German Minister, and the next step will undoubtedly be in the same direction, namely, the imposition of some restriction upon an American product that is imported in quantities into Austria.

The four great sources of our sugar supply, outside of the small proportion contributed by Louisiana, are Cuba, Germany, France and Austria. With three of these great countries we are already at odds over the sugar duty, and in the case of France there are already indications of the adoption of a retaliatory policy in the imposition of restrictions upon our meat, wheat and flour.

This whole subject was under discussion by the Cabinet, and as far as can be gathered the outcome was that if Congress fails to come to the relief of the Executive by the removal of the duty which is supposed to cause the trouble, then resort must be had to retaliation, which will either open European countries to our exports or close our own ports to all European products.

THE CAUCUS.

Agreement to Support an Amended Currency Bill.

A Motion to Make the Caucus Action Binding Was Defeated.

Mr. Blaud Objects to the Carlisle Bill, and Mr. Springer Explains His Amendment—The Very Important Motion Voted Down—Crisp Explains His Party's Work.

WASHINGTON, Jan. 8.—After three hours discussion the Democratic caucus Monday afternoon, by a vote of 50 to 28, agreed to support the Springer substitute for the Carlisle currency bill.

The caucus was called to order shortly before 2 o'clock by Judge Holman, of Indiana, chairman of the caucus committee. One hundred and fifty-two members were present, leaving more than seventy-five absent.

Immediately upon the conclusion of the roll call Mr. Livingston, of Georgia, made a motion that all those present should be bound by the action of the caucus. The chamber meanwhile had been rapidly filling up with members, and at the time the Livingston motion was made there was an unusual chorus of "Nos." and a point of order was made against the motion. The chair (Mr. Holman) sustained the point of order, stating in effect that the uniform practice of thirty years was that caucuses are advisory and not binding in their character.

Speaker Crisp took the floor and said that the democratic party in congress has kept its pledges. It has reformed the tariff, repealed the federal election law and practiced economy in appropriations. The party has differed in matters affecting currency and finance. The secretary of the treasury has formulated a bill. The question is can the party agree upon something this short session. He believed legislation should be had, that congress should respond to the call of the treasury and of the country. He then offered a resolution that the members support the Carlisle bill substantially as presented in the substitute.

Mr. Hand, of Missouri, immediately took the floor and opposed the Crisp resolution. He characterized the Carlisle bill as a repudiation of the time-honored principles of the democratic party from the days of Jefferson, Benton and others of the great leaders, down to the present time. He stated with great emphasis that he would never support any measure which extended the power of the national banks.

In reply to a question he said he was willing to go back to the democratic doctrine of coining both metals and abolishing the ten per cent. tax on state banks. Mr. Hand added in conclusion that he was unwilling to accept the dictation of the secretary of the treasury in this matter.

Mr. Springer, in supporting the resolution, said in part: "Our democratic president has inducted the measure in his message to congress. It has been prepared after careful study and investigation by the democratic secretary of the treasury, Mr. Carlisle, a gentleman whose abilities are not excelled by any man in the United States, and whose administration of the treasury department has been as able as that of any of his predecessors.

"We do not claim," said he, "that we are bringing about a financial millennium, that we are curing all the ills of our financial system, but we do claim that, if this bill is passed, it will better all our friends and furnish the people of the United States, a sound, sufficient and flexible currency, will meet all the wants of trade and commerce, and give stability with honest confidence throughout the world to our financial system."

Mr. Springer concluded his remarks amid the applause of his colleagues. Several members desired to submit questions, and tenable him to answer them his time was extended several times.

Mr. Sperry, of Connecticut, advocated the bill introduced by him last week, which provides for the funding of the legal tenders and the issuance of a low interest bearing bond. He then moved that the pending resolution be so amended as to read that it is the sense of the caucus that the bill introduced by him shall be passed by the house.

Mr. Terry, of Arkansas, offered an amendment authorizing each state treasurer to buy silver bullion sufficient in amount to coin a dollar for every inhabitant of the state; to present it to the United States treasury, the latter to coin it into silver dollars and in turn present it to the state treasurer.

Mr. Crisp demanded the previous question on the resolution introduced by him and the amendments. The previous question was ordered. The Terry amendment was first considered. It was defeated by a vote of 61 days to 54 years.

The Sperry amendment was then rejected by an overwhelming majority, their being but 13 votes in its favor.

The second proposition was to the limitation of debate by the committee on rules. The first proposition was carried by a vote of 85 yeas to 15 nays, and the second proposition without material objection.

THEY'RE ANGRY,

And Say Hampton Would Not Have Been Lynched.

Kentuckians Refuse to Accept Buchwalter's Decision as Final.

They Will Retaliate by Arresting a Criminal Wanted in Cincinnati, Now in Kentucky and Holding Him for Trial, to Insure Hampton's Delivery.

COLUMBIA, Ky., Jan. 8.—The state of Kentucky and the people of Green county refuse to accept Judge Buchwalter's decision as final in the Hampton case, and a clever plan has been conceived to circumvent any further objects to Hampton's extradition when he is again arrested. The scheme threatens to create an issue which will result to the advantage of fugitives from justice.

Cincinnati police want a Negro who is now in Kentucky, and before forty-eight hours have passed this Negro will be in the custody of Kentucky authorities. He will then be held as a hostage to insure the delivery of Hampton. If he is not surrendered the fugitive from Ohio will not be turned over to Ohio authorities.

Great indignation and excitement prevails here on Hampton's release. Judge W. H. Reeves and other conservative citizens say that there has been any danger of Hampton's being lynched. A reporter interviewed several representatives of Green county, all of whom denounce Hampton's assertion that he would be lynched as absurd and without foundation. Schoolhouses and churches are full in this community, and all citizens seem to be opposed to any violation of law.

Hampton would have been in no danger of being lynched had he been brought back. It is said that a warrant will be issued against him here for bigamy also. Another requisition will be applied for. Citizens of Green county feel that the fair name of the community is involved and will resort to any lawful expedient to have the fugitive brought back and tried.

JAY GOULD'S WEALTH.

At the Time of the Great Financier's Death His Personal Wealth Was Worth \$75,000,000.

NEW YORK, Jan. 8.—Lawyer David McClure, who, in March, 1893, was appointed appraiser by the court to fix the value of the estate of the late Jay Gould at the time of his death, with a view to determine the amount of tax that should be imposed upon the personal property, has made his report, in which he finds the value of the personal property of the millionaire to have been \$75,000,000, less the amount of debts, \$6,553,530.71, and legacies, annuities, etc., to his brothers, sisters, grandsons and other relatives, the amount of the residuary estate to be \$72,246,469.29.

Mr. McClure says in his report that it was found at the outset of the proceedings that they would be protected, and it was then determined by the executors of the estate to deposit with the controller an amount which in their judgment would meet the taxes to be paid upon the property. The executors then paid \$600,000 to the controller, upon the assumption that the personal estate would not exceed \$60,000,000.

Each of the six children of Mr. Gould is entitled to a life estate, in trust, in one-sixth of the residuary estate, with the remainder to their children. Under a recent decision of the supreme court it is held that these remainders are liable to taxation, while formerly they were exempt. This will reduce the tax considerably. So it is expected the executors will be entitled to recover from the \$600,000 which they paid to the state a small sum in their favor.

THREE KILLED.

Two Freight Trains Met on the Same Track Near Smithville, O.

SMITHVILLE, O., Jan. 8.—A collision between two freight trains on the Wheeling and Lake Erie railway, one mile east of Smithville, at dawn Monday morning caused the general office to hurry to the scene with wrecking crews, surgeons and every available railroad man in the yards. Extra No. 23 passed through Orville with a heavy load in front of the engine. Orville it was boarded by Erwin Langsdorf, a young man who had been riding the engine with his best friend. A few minutes later his neck was broken. As No. 23 left Orville No. 63, was coming east from Smithville. The two trains met and were improperly constructed is yet unknown. A collision was inevitable, and it came with scarcely a moment's notice. Langsdorf was killed by the shock, as stated.

W. J. Ryan, of Norwalk, fireman on No. 63, was caught on the cab of his engine, and his hand being caught against the furnace door died in awful agony. His body slowly cooked to be the shoulders. Conductor Joseph R. Ransom, of Norwalk, jumped to the ground, fracturing several ribs, and breaking an arm. He walked through the wreckage to Smithville in a condition and submitted to examination. His internal injuries are such that he will die before morning. Jack Herkner, of Massillon, and George Perkins, of Norwalk, were slightly injured.

This was a big surprise, but neither of the men supposed it was published. He thought the matter was settled until Monday, when it was announced in the common pleas court that it would be the next case tried.

THE CAPITAL.

The Democrats Uncertain About Foreign Retaliation.

The Ways and Means Committee May Not Even Report the Bill.

Repeating the One-Tenth Sugar Differential—Whether the Republicans Will Co-operate With the Democrats in Remedial Legislation a Question.

WASHINGTON, Jan. 8.—What action congress will take to end the growing tariff complications between this government and the European powers, or whether any measure will be adopted for that purpose, are questions clouded in uncertainty. Considering the importance of the tariff war to commercial interests, attention given to it by members of congress is noticeably light.

Chairman Wilson, of the ways and means committee, recently introduced a bill, in accordance with the recommendations in the president's message, to repeal the enactment in the form of prohibition of American beef. But it is not altogether certain that the ways and means committee will report the bill to the house, nor is it at all assured that the house will pass it in case it emerges from the committee.

Mr. Wilson was asked the prospects of the bill, but did not speak enthusiastically of them. He said, in answer to a question, that his claims for consideration might be brought to the attention of the rules committee after the currency bill, and he was disposed to admit that the remaining time of this congress was very short and there would be a great pressure upon the committee for allocation of time for various other important bills.

Illinois being the stronghold of the meat business, the representatives of that state have been urged to do something in the interest of their constituents. Representative Aldrich of Chicago is receiving many communications on the subject, and intends to talk with his colleagues not to suggest legislation, but to ascertain what will be the attitude of the house whatever the democrats may propose.

Whether the republicans will co-operate with the democrats in remedial legislation becomes an open question. It is known that the democrats are not agreed upon their course, a faction of them thinking with Mr. Cannon that any law which would be unwise. Mr. Cannon said that the affirmative or negative votes of the republicans might hinge upon whether, in their estimation, the complementary act proposed would entail greater disadvantages than the existing sugar schedule, and particularly whether it would reduce the revenue of the government.

What was now insufficient to meet its expenses. If the ways and means committee would propose to re-enact the reciprocity system, which congress had obliterated with marked disloyalty to the foreign governments, parties therein, as well as to the detriment of American business, he said sarcastically, the republicans would co-operate with them heartily. He did not see how Mr. Wilson could be expected to become the leader of a movement to repeal a tariff which the senate had imposed on his bill against his opposition.

Seeds by the Million.

WASHINGTON, Jan. 8.—The annual seed distribution at the agricultural department has so far resulted in distributing 1,300,000 papers of vegetable seeds to the people throughout the country. The work will probably not be completed before May and no flower seeds have been sent out this season. There are still about 6,000,000 papers of seeds awaiting distribution.

Brokers Must Testify.

WASHINGTON, Jan. 8.—The court of appeals of the District of Columbia Monday rendered an opinion sustaining the decision of Judge Cole in the case of Messrs. Chapman and MacCartney, the stock brokers, who refused to testify before the senate sugar investigating committee regarding individual sugar contracts through their firms. Judge Cole's decision overruled a demurrer filed by the brokers to the government indictment.

Judge Cole's Contention Deferred.

WASHINGTON, Jan. 8.—The senate judiciary committee Monday considered the case of Judge Clark, appointed to the district judge for the eastern and middle districts of Tennessee. A sub-committee, consisting of Senators Hill, Lindsay and Platt, was appointed to investigate all the charges and report to the full committee at a later date.

No Tariff Legislation.

WASHINGTON, Jan. 8.—The republican steering committee attempted to meet Monday morning, but did not muster a quorum. Those present talked informally of the proposed program. Though no conclusion was reached, the members of the conference said that there would be no tariff legislation, not even the correction of what are termed errors in the bill. As to the fight against the income tax, it was understood that Senator Quay would oppose that provision in the appropriation bill, and other republicans would make speeches, but there would be no party fight made upon it.
